Jackie,

Now that the holidays are past, Central Maine Power Company and the NECEC permitting team continue to review and develop responses to USEPA's comments on the October 29 interagency meeting minutes. Because CMP's responses will help inform your review and response to our November 26, 2019 Interagency Meeting Supplemental Information Response, we ask that you defer your response to that information until you receive and review our response to your meeting minutes comments. We anticipate providing this to you in the next week or two.

Please let me know if this schedule works for you, and call me if you want to discuss. Thank you very much.
